Second Cooking Class Friday For Women of Vicinity

Ruth Richardson to conduct school in Addison Village Hall — All women invited to free sessions—Gifts by local merchants and manufacturers — Over 100 present last week—Interesting speaker.

The first session of the Addison Advertiser-Woodhull Sentinel Cooking school is history and the second session is in process of being held. The first session opened last Friday afternoon with 107 women being present. Of these 28 received gifts to take home with them in the form of grocery bags filled with delicious and useful foods, some with theatre tickets, others with articles made by the demonstrator.

The school opened promptly at 3 o'clock. Publisher Maurice E. Miller spoke briefly on the object of the school, the sponsorship and of the prizes to be given at this school and the grand prize of $50 credit and World's Fair tickets at the three day session.

He then presented Miss Ruth Richardson of the Spry home economics kitchens of Cambridge, Mass. She preceded to entertain with stories, recipes and short kitchen hints. She made a delicious frosted cake, ham rollettes, pie and other delicious viands. These were distributed at the close of the school.

Miss Richardson states she will answer questions at the school Friday and also at the school Friday, September 13. Printed programs containing all the recipes used on the school hour were distributed by the ushers, members of the Advertiser-Sentinel staff.

Publisher Miller made the awards, giving a description of the product, the donor and the uses of and for the products, as follows: Two tickets to the Avon Theatre donated by Manager Stacy Newman went to Miss Catherine Horey; a hairdo donated by Payne's Barber Shop was awarded to Mrs. Gordon Bliss; a cocoanut cake made by Miss Richardson was awarded to Miss Elizabeth Horey, sister of the first winner; plum pie made by Miss Richardson to Mrs. Eugene Sherwood; ham rollettes made by Miss Richardson to Miss Betty Jean Kennedy; chocolate crunch cookies, made by Miss Richardson to Mrs. R. W. Soper; a pastry cockie mix to Miss Margaret West and a can of molasses donated by G. L. F. to Miss Carolyn West; Mrs. Bina Kneaskern and Miss Helen Kenaskern, each a bag of groceries, Mrs. Marian D. Tompkins, a bag of groceries, Miss May Sackett a bag of groceries, Mrs. Carl Sutliff a 5-pound sack of G. L. F. self rising flour.

Also a bag of groceries to Shirley Housel; a bag of groceries to Miss Minnie Michel; a 5-pound sack of G. L. F. corn meal to Miss Lois Church; a bag of groceries to Mrs. Ford Davis; a 5-pound sack of graham flour donated by G. L. F. to Susan Orr; a bag of groceries to Genevieve Brown; a two-pound sack of G. L. F. whole wheat shreds to Mrs. Nina Miller; a bag of groceries to Mrs. R. E. Dyer; a 5-pound sack of G. L. F. quality patnet flour to Miss Helen A. Smith; a bag of groceries to Mrs. Frank Merwin; a five-pound sack of G. L. F. quality patent flour to Mrs. Nellie Perkins; a bag of groceries to Mrs. J. H. Bliss; a two-pound sack of whole wheat shreds to Delores Horey; a bag of groceries to Mrs. W. L. Greene; a can of G. L. F. Old Jug molasses to Mrs. Clifford Moyer; a sack of Old York pastry flour donated by G. L. F. to Mrs. Willis R. Perry.

In the grocery bags were Cain's mayonnaise, Kraft dinner, Rumford baking powder, Rinso, Lifebuoy, Lux soap, Shell furniture polish, Pep-O cookies and many other items.

Miss Richardson spoke of the Tappan Range used on the stage and the perfections in modern cooking with gas. Attention was called to the many features of the stove which make for cool, comfortable and quick cooking. The kitchen table used during the school is from the stock of S. D. MacDowell.

Genevieve Hoaglin is Transferred to Randolph

Miss Genevieve Hoaglin, Cattaraugus County nurse who has been located at Salamanca has been transferred to Randolph. In Randolph half of her time will be occupied as school nurse and the remainder devoted to work in the community. Randolph has a centralized school with an enrollment of 900. Since this is in the nature of a well-merited promotion for Miss Hoaglin her friends in Addison are congratulating her.

RESUMES MEETINGS

Mrs. Guy Mayer, Front street will be hostess to members of the Woman's Auxiliary of the Church of the Redeemer at the meeting to be held this (Thursday) afternoon at 2:30 o'clock. Mrs. David Phillips will be assistant hostess. This meeting will be the first following the summer recess and it is hoped there will be a good attendance.

Grange Plans Display at Bath Fair

Members of Addison Grange are planning quite an extensive display of produce, handiwork etc. for the Grange booth at Bath Fair next week. To that end committee appointments have been made as follows: Fair committee, Robert Drake, Ralph Hand, Earl Beatty, Frank Finnerty, Mrs. Jennie Mose, Mrs. Earl Smith and Mrs. E. C. Dann. Baked goods, Mrs. Raymond Young; canned goods, Mrs. Carlton Ford; corn, Raymond Young; dairy products, Robert Drake; fruits, Francis Jones; flowers, Velma Perkins; fancy work, Mrs. Elroy Hannahs; grains and grasses, Stanley Ackerson; honey, Frank Ward.

All Grange members who wish to contribute to the display are requested to notify the committee or have their articles at the G. L. F. store by eleven o'clock, Monay forenoon.

4-H Stars Plan Dance— Will Go to Presho

The Canisteo Vally 4-H Stars met in Addison Grange Hall Tuesday. The club has been invited to Presho for a 4-H meeting Friday night, September 6. The club is going to have a dance Saturday evening, September 7 from 8 to 12.

Boys present were William Cutler, Junior Sherwood, William Wilson, Charles Wilson, William Ford, Junior Switzer, Robert Smith, Richard Gee, Donald Gee, Leo Troy, Jr., William McCarthy and leader, Thomas Kane, Jr.

VACATION OVER

Mrs. Wilma Mose, Matron of Tuscarora Chapter, O. E. S., announces the resumption of regular meetings this (Thursday) evening at 8 o'clock.

This being the first meeting of the fall all members are urged to make a special effort to be present.

Advertiser Staff Fetes Trio At Picnic Supper

Miss Beatrice Smith, daughter of Mr. and Mrs. George M. Smith, South street and Ralph H. Wade, son of Mr. and Mrs. John Wade, Cleveland street, with John R. Smith, son of Mr. and Mrs. John M. Smith, Maple street, were the honor guests at a party given by employes of the Advertiser-Sentinel last Thursday night.

Miss Smith and Mr. Wade are to be married in October and Mr. Smith is to leave this month to enroll as a student in Alfred University.

Mr. and Mrs. Harry Mullen, Steuben street, were hosts to the group of 16 which attended this combination congratulatory and farewell party. A buffet picnic supper was served. Publisher Maurice E. Miller made short speeches in which he spoke of the work of the staff members and spoke of past members who have entered college and of the last marriage on the staff. He then presented the bride-and groom-to-be a table lamp on behalf of the employes and to Mr. Smith a brief case. Games were played and fortunes told.

Those present were: Publisher and Mrs. Miller, Mr. and Mrs. Forrest Perry, Mr. and Mrs. George L. Smith, Mr. and Mrs. Forrest Rouse, Miss Beatrice Smith, Miss Betty Pepper, Miss Betty Jean Hickey, Ralph H. Wade, Wilbur Bulkley, John Smith and the host and hostess Mr. and Mrs. Mullen.

ENTERTAINS

Mr. and Mrs. William Levi entertained recently. A picnic dinner was served to the following: Mr. and Mrs. John Lyon and son Jackie of Buffalo; Mr. and Mrs. Ralph Lyon and daughter Betty Jane, Mr. and Mrs. Gus Lyon, Mr. and Mrs. Osbourne Lyon and Mrs. Milford Lyon all of Naples; Mr. and Mrs. Charles Levi, daughter Augusta and sons Charles, Jr., and Gordon.

High School Enrollment Over Last Year

High school registration was five over last year on the opening day according to figures released this week by Principal Irving R. Gladstone. Last year on the opening day there was a registration of 220 and in 1938 there were 242. This year the opening session saw 225 students registered in high school.

There is a large freshmen class of 74 with 44 in each of the sophomore and junior classes and 49 in the senior class. It is expected there will be 14 post graduates.

Indications are for a small entering class next year unless additional enrollment is picked up in the country. For there are only 38 in the eighth grade, 47 in the seventh grade, 26 in the sixth, 31 in the fifth, 30 in the fourth, 23 in the third, 30 in the second and only 25 pupils in the first or entering grade. Broken down this means there are 165 in the primary department, 85 in junior high and 225 in high school.

This enrollment is expected to be higher by the end of the week as additional students enroll.

Hi-Lights and Shadows of the Week's News

President Roosevelt opened the flood-gates of congressional debate Tuesday when he announced a deal to turn over 50 U. S. destroyers to Britain in exchange for lease of air bases in the West Indies. Isolationists immediately indicated they would try to stop the deal Mr. Roosevelt averred he could make without sanction of Congress. He stated the deal included a pledge Britain would never turn over their big fleet to Germany.

Singing "Roll Out the Barrel" 321 children were rescued from a British ship torpedoed Sunday somewhere north of Scotland. The children showed no signs of panic as they were placed in life boats and taken to rescue ships, their greatest concern being fear they would not be able to continue the trip to America. The British refused to give the name of the torpedoed vessel which had nearly 800 on board.

Haile Selassie was believed the intended target of an Italian air raid which killed three American missionaries in Egypt last week. The victims were Dr. Grieve and a young medical missionary and his wife. Selassie was waiting near to slip over the border to his followers in Abyssinia to organize revolt against the Italians.

Former Congressman O'Connor, sole victim of the Roosevelt purge in the election of 1938 has asked Farley to tell the truth about New Deal facts. O'Connor, naming Farley as a logical candidate for President urged him to tell, "Early in 1939 Roosevelt told you he would make a public statement that he would not be a candidate after Congress adjourned." Farley has not been heard to comment.

Dr. J. D. Love of Ysleta, Texas told a Cleveland medical meeting that the horse and buggy days for country doctors is a symbol of the past. Dr. Love has gone streamlined, using a trailer complete with operating table, sterilized apparatus, X-ray machine and Pullman type beds. He covers a field of more than a fifty mile radius, and on the average delivers a baby a day. He says his trailer makes his work easier and enables him to do a better job than when he had to drive.

FATHER KELLY RETURNS

Masses Sunday in St. Catherine's Church were said by the Rev. John Smith of St. Mary's Church, Corning in the absence of the pastor, the Rev. Patrick A. Kelly, who has been on a 1200 mile tour with his sister and brother-in-law Mr. and Mrs. Thomas Driscoll of Rochester. They visited in New England and the World's Fair.

Uncle Ab says that wealth has no particular relationship to happiness.

Work Progressing Slowly on Temporary Bridge Construction

Contractor awaits arrival of steel — Piles being driven into river bed to support structure—20 are being driven by steam driver hung on crane — Asphalt topping to begin next week on Wall Street.

Actual work of construction for the temporary bridge over the Canisteo River started Wednesday of this week when piles were driven upon which the steel girders will be laid for the bridge structure.

Engineer Charles Blair stated that four piles would be driven at each 40 feet from bank to bank and there will be five rows of piles. The steel girders of 40 feet each will rest on these piles.

The piles are being driven by a three and one-half ton steam hammer. There will be 20 of them stretching from side to side in rows of four. They are over 50 feet long and are being driven well into the ground to support the load of highway traffic they will be forced to bear.

Steel for the construction of this $10,000 temporary structure is expected to arrive the latter part of this week and workmen will start putting it in place as soon as it arrives.

Engineer Blair also states that work of blacktopping Wall Street from Front to the river is expected to begin next week. There will be a two-inch topping of asphalt on the street, across the Erie tracks and on the approach to the bridge on the north side.

Few local laborers have been employed on the project as yet as most of the work has been done by members of the E. W. Foley, Inc., workers, bridge contractors, and successful bidders on the job. When work starts on the bridge construction and on the resurfacing of the approaches, it is expected more local men will be employed.

Many daily line the rail of the old structure, which is to be replaced, to watch the workmen as they go about their work under the direction of Mr. Blair and Fred Burke, foreman, both of whom have impressed local people as knowing their business and as industrious workers.

When the preliminaries are completed the work will go along much faster. There has been some tie-up on securing the proper steel for the entire project. However, when the steel comes, all required for the temporary and new bridge will be in the allotment.

Conduct Services At Bath Institutions

The Rev. Nicholas Van Cossaboon of the Methodist Church conducted services in the Bath jail and sanitorium Sunday for the inmates of both institutions. There was a prayer and song service at both places.

Those who accompanied the Rev. Cossaboon were Miss Betty Pepper, Miss Madeline Short, Douglas Hand, Miss Sylvia Smith, Wilbur Bulkley, Billie Pepper, Mrs. B. F. Short and Mrs. George L. Smith.

Mrs. Lackey Moves Into Apartment

Mrs. Rhoda Lackey whose home was remodeled into two apartments some time ago has moved into the apartment vacated by Mr. and Mrs. Charles Cook and Mr. and Mrs. Robert Murray have moved into the apartment she formerly kept for her own use. Mr. and Mrs. Cook have moved into an apartment in the MacDowell tenant house on Maple street.

Seek Home Guard Enlistments in Addison

An opportunity to join for voluntary service in case of war is being given men of this community according to Clair Chart. Applicants must be between 21 and 60 years of age, American citizens and in good health.

As has been stated here before the 21st Infantry, New York Guard is being formed under the direction of Governor Herbert H. Lehman. This unit will be a civilian unit, drilling weekly in the Corning armory and only to be called for home service in case of emergency when the regular national guard units are called for war.

The men of this unit will be posted guards at key industries and utilities, be air defense watchers in cases of emergency and carry out a much broader home program than the home defense guards during World War I.

Mr. Chart has applications for this unit. The men of the outfit will drill with regular guns and become proficient in their use, a good thing to know regardless of whether an applicant is ever called for service.

It is hoped that a group from Addison can be enrolled in this volunteer unit for two years.

Among questions asked are: Name, address, phone, business, employer, date and place of birth, birthplace of father and mother, whether married or single, height and weight, health condition, present trade or occupation, other trade or occupation, and if a man has a service record there is a place for him to so state and to indicate the type of service. However, it is understood that previous military training does not count in the new organization, which is open to all men, married and single.

PRESBYTERIAN GUILD

The opening meeting of the new session for the members of the Presbyterian Guild will be held Monday evening at 7:45 o'clock in the church parlors. Mrs. Stuart H. Bean, president, will be in charge. There will be an informal program at this organization meeting.

Good humor is a great aid to good digestion, family life and foods specialists agree.

Beatrice Spencer Bride of Edwin Chart

Miss Beatrice Selleck Spencer, daughter of Mrs. Harry McCaig, 293 Sly Avenue, Corning, became the bride of Edwin Eugene Chart, son of Mr. and Mrs. John E. Chart, Baldwin Avenue, this village, in a charming and pretty wedding ceremony performed Sunday afternoon, September 1.

The Rev. John Annas of the First Methodist Church in Corning united the couple in the church. Palms, garden flowers and other appropriate decorations were used thruout the church edifice.

Miss Eloise Spencer, sister of the bride, was maid-of-honor and Phyllis Gallagher, cousin of the bride, was flower girl. John Taft, Baldwin Avenue, Addison, a life-long friend of the groom was best man. Ushers were Arnold Gabel of Borden and Llewellyn Spencer, the first a brother-in-law of the groom and the second a brother of the bride.

Music during the ceremony was provided by Mrs. James D. Jones. Among the numbers she presented were: DeKoven's "O Promise Me", and Nevin's "I Love You Truly". During the actual ceremony she played "The Bridal Chorus" from "Lohengrin" by Wagner and Mendelssohn's wedding march.

The bride wore heavy white satin with sweetheart neckline and basque waist with all white accessories. Among the "somethings borrowed" worn by the bride was a pearl necklace worn 25 years ago by her sister in-law Mrs. Harold Spencer, at her wedding.

The maid wore a dress styled like that of the bride without veil and train. Her accessories were of yellow and the gown was of aqua. The flower girl wore yellow taffeta and carried pom poms in a basket. The mother of the bride was attired in black crepe with white accessories and the groom's mother wore slate blue crepe with matching accessories.

A reception was held at the home of the bride's mother for 100 relatives and friends of the young couple. Mr. and Mrs. Chart are on a honeymoon trip to Charleston, W. Va., where they will visit the bride's brother, Harold and tour other parts of the south.

Mrs. Chart is a graduate of Corning Northside High School and has been employed as secretary in the Baron Steuben Hotel. The groom is a graduate of Addison High School and is associated with his father in Chart's Market in Addison. He has been prominent in athletic circles here.

Mr. and Mrs. Chart have the best wishes of many friends in Corning, Addison and vicinity. They will make their home at 293 Sly Avenue, Corning.

Weekday Religious School Will Begin in October

The week-day school of religious education formerly held in the various churches of the community will get under way the first week in October.

Parents are asked to cooperate with the directors and sponsors of the school in returning the slips granting the permission for teaching the religious subjects. No child will be taught unless the parents return slips giving that permission.

Only three grades will be taught this year, being the third, fourth and fifth grades. One year of this intensive treatment is worth two years of Sunday School sessions.

NYA Projects Close Here

The National Youth Administration projects for out-of-school young people in Addison have ended. Word reached here this week to close the projects. This removes two girls from the Addison Public Library staff according to Mrs. Susan D. Perry, librarian and takes one boy from the high school staff.

Under the new national emergency plans, the youth in the NYA are to be put into preparedness programs. The boys will learn mechanistic work and the girls will be placed in hospitals to learn nursing, first aid and other beneficial work.

In communities where facilities are not available, the young people are being taken to nearby cities where projects are available. However, in communities the size of Addison the expense of taking the workers does not justify the project and so the young people are left without work.

It is also expected that with a decreased appropriation for state and national NYA work, there will be fewer workers employed this year than last. It is not known how this will affect the Addison workers in the high school.

Edith Cheney To Speak at Civic Meet

Assemblywoman Mrs. Edith Cheney of Corning, will be the speaker at the opening meeting of the Addison Civic Society on Wednesday, September 11 at 3:30 o'clock.

Miss Katharine Darrin, president of the society, will preside at a business meeting which will precede the speaking. She will outline plans for the year, give the list of committee appointments and announce other plans in progress of being prepared.

Mrs. H. E. Auriger is chairman of the Civic Section of the club and was instrumental in securing Mrs. Cheney for the talk which will be non-partisan. Men and women of Addison and vicinity are invited to attend.

The newly renovated rooms over the Addison Public Library will be used for the club for both business meeting and the talk by Mrs. Cheney. The speaker comes here after a year in the legislature, where she took the place of her late husband, Guy Cheney. She is also first vice president of the New York State Federation of Women's Clubs.

Rathbone to Have Old Home Day Sept. 17

Plans are nearly complete for the third annual celebration of Old Home Day at Rathbone to be held September 7, 1940.

The Hon. William Stuart, assemblyman from Steuben second district will deliver an address during the day. A program of sports and games has been arranged under the direction of Sam Fowler. This will include a parade of the Old Timers and New Timers.

The Ladies Aid Society will serve dinner at noon at the Grange Hall.

A cordial invitation is extended to all. Come and help make this a grand celebration and meet old friends and acquaintances.

Addison Motion Pictures Amused and Entertained

Those who saw themselves as others see them got a great kick out of the pictures shown at the Avon Theatre last Wednesday and Thursday nights. In addition their many relatives and friends were greatly amused by the pictures. Some of the photography was not as clear as the commercial pictures shown on the regulation screen, but everyone recognized most of those seen in the pictures and had a great laugh. The photographer had a great deal of fun taking the pictures and enjoyed himself while in Addison. He left the film with Stacy Newman, manager of the local theatre and this in time will be a historic record of Addison of 1940.

Wilson Supervises Boy Scout Program

Troop Committeeman Bernard Wilson was in charge of the Boy Scout meeting for Scouts of Troop 27 last Thursday night. A short Scout ritual was conducted at headquarters after which the group adjourned to the softball diamond in the rear of high school where teams were formed and a fast and furious game resulted. This competition gave the boys and opportunity for organized and supervised play in the open. It is expected that the Rev. Mondula C. Johns, Scoutmaster, will return from his vacation this week and that Scouting will resume its regular year of activities.

HAS OPERATION

Mrs. Reginald Labourr, South street, is confined in Bethesda Hospital, Hornell. She received an appendectomy Sunday morning with Dr. George Taylor as the surgeon. Mrs. Labourr is recuperating rapidly.

Game Club Annual Outing Sunday At McCarthy Field

Over 1200 expected at annual outing—Entertainment all day — Game program planned — Gifts for children—Thomas to demonstrate guns and Warden Tompkins to show falcons.

Plans have been completed for the annual field day and outing of the Addison Fish and Game Club to be held Sunday morning and afternoon on the club grounds, McCarthy Field, river road south.

This affair annually attracts from 1,000 to 1,500 people many of them being outstanding sportsmen of Steuben County. In addition to many well known trap, skeet and target shooters, there will be several members of many of the Steuben County and vicinity clubs who shoot for the pleasure of shooting.

A committee of Vernon Adsit, Kenneth Nixon, Bert Elwood, Llewellyn Robbins, Leland Little, Walter McDermott, George M. Smith, Hugh Varn and many others have donated time to paint the interior of the new kitchen and also the entire exterior of the building in preparation for this event. The kitchen walls have been made so they can raise to be used as counters for the serving of food.

L. W. Barr and Walter McDermott will be in charge of the game programs on the grounds during the day Sunday. Winfred Huggins will have charge of fox and coon chases, with some of the best hunting dogs in the county entered, Leland Little will supervise trap and skeet with Llewellyn Robbins, George Hargrave will supervise target shooting, Hugh Varn will be master-of-ceremonies, Henry Shelanskey will supervise soft drinks and smokes, Kenneth Nixon and Harry Mullen will be in charge of the kitchen and Harry Fritts and Elmer Bovee will be at the gate and park cars.

There will be many gifts for children. Other features on the day's program, organized to appeal to men, women and children, will be some expert shooting by Fred Thomas, an exhibition of falconry as practiced in the days of old by Warden Tompkins of Hammondsport, who has trained three of these birds. It is also expected that A. J. Vormwald, district game inspector for the southern tier of Olean will be present.

Weather permitting, this promises to be the largest gathering in the past several years, as there is a greater interest in guns and shooting than ever before and meets of this kind throughout the state have been drawing increased attendance. There will be women and boys and girls shooting for prizes in the meet.

"CANDY STICKS" POOR DIET

Few doubt the capacity of America to arm against any aggressor, once her marvelous industrial machine moves into its stride. But it takes far more than a tough military nation to live and prosper permanently as an independent sovereign power in the world of today. The world of today is a world of reality. Natural laws of survival, which during the past decade had been submerged in a mist of theory and reform, have suddenly reappeared like grim headlands on a rocky coast. France was wrecked on one of these headlands, and in the words of Wendell Willkie, was crushed "like an eggshell". She was wrecked because she "had adopted a candy stick theory of government. When a child cries you give him a piece of candy and try to quiet him".

This country has been living on the "candy stick" theory also. A $20,000,000,000 deficit in less than a decade is mute proof of that. Aside from the money that has been spent legitimately to relieve unavoidable distress, billions have been inexcusably squandered. The best alibi in creation cannot hide the fact that America has been decaying internally much the same as France did. Under the plea of reform, our politicians have passed out the "candy" to thoughtless millions who naively believe that they have been getting something for nothing. Is there a community that has not bragged of its new airport, parks, swimming pools, palatial schools, public buildings, new streets, and what not, built with Federal funds? If during the past few years there existed a community that did not anxiously reach for "candy sticks" it was indeed a rarity.

War has moved the day of reckoning forward. No one denies that more huge government deficits are in the offing. It is predicted that the Federal debt will rise at least to $60,000,000,000 and probably more before the end. This debt and the trend back of it will ultimately result in utter destruction of all that America stands for—freedom of opportunity, freedom of speech, freedom of religion — unless we are tough enough morally to face the reality which France failed to face. Armaments alone won't save us. Democracy collapses when it becomes soft internally and when its people forget how to work. "Candy sticks" are not a strengthening diet.

WHO FIRST?

Thought provoking to say the least is the campaign initiated by the King of the Hoboes to have conscription fall first upon tramps. Not that we expect Congress or the army to give the suggestion even passing consideration.

The nail Davis hit squarely in the head is the fact tramps and wanderers being perennial livers off the country in general, they should be pressed into the service of their country and contribute something to public welfare in return. A perfect society, if one could imagine such a thing, would be a state in which every living person contributed something for the general good. The King of the Hoboes doubtless is thinking along those lines when he, a confirmed itinerant and seeker of largesse from others expresses his opinion the hoboes should be drafted first. He says he is going to Washington to try to get some action on the proposal.

In the country are millions of unemployed—many through no fault of their own. The conscription measure should take this fact into consideration. To be sure employes in industries essential to rearmament are supposed to be given preferential rating, but that does not go far enough. Is it undemocratic to draft first the men who are now unemployed and give them a chance to learn something about a real trade as they do in the regular army? Or should we take men hit or miss, without reference to what the effect may be upon their job, their business, or their employers?

Married men are supposed to be exempt, yet there are many single men who deserve exemption just as completely as do many married men. How can real justice be done?

TALK, TALK, TALK

It is high time that the United States got started on a plan to build and moblize for defense. Too much talk, too much time and too much money have already been spent without result.

Back of it all is the willingness to play politice. Democrats and Republicans, alike, are thinking too little of the important stakes and only of the "party take".

After weeks of quibbling, it would be astounding to know how little has actually been done toward all this high and mighty talk that has been indulged in. It would, too, be aggravating to know the amount of money already spent without a single implement to show for it.

If the Democratic party and the Republican party sincerely hope to keep the United States together; hope to preserve peace and liberty; hope to wipe out all anti-American activity; hope to save their own skins—or, even hope—the time is long passed for action. Too much politics is responsible, and who pays the freight?

WHAT THE HOOVERS DIDN'T DO

An inspired piece from one of the New Deal propagandists says that "Hoover was a complete failure". So he was. He failed in a lot of things. He failed to draw out his salary of $75,000 a year while he was president, turning it all back into the treasury. He failed to have his sons organize insurance company firms to write insurance on government enterprises. He built a Rapidan resort for fishing and recreation at his own expense and gave it to the government. None of his sons went racing through the divorce courts to the disillusionment of the public. He never bundled up a lot of government documents to sell as a book to the faithful at a high profit to himself and he never sold himself into political slavery to a labor organization for a $500,000 campaign fund. He gathered a marvelous collection of war stuff and built a museum for it, but failed to ask Congress to pay the bills—he paid it himself.

He did not preach and promote class hatred and he did not try to pack the Supreme Court. He did not plow up every third row of cotton and he did not promise the American people one thing while at the very same moment doing everything to accomplish the directly opposite result.

He did not ask Congress to assess the taxpayers a billion dollars every time someone shot off a firecracker in Europe and he did not go on fishing trips on government warships accompanied by a fleet of destroyers. Neither did he kill off all the farmers' little pigs or encourage the importation of Argentine beef in preference to American beef. In fact, there were a lot of foolish things that Hoover didn't do that some people have done. There are a lot of constructive things he could have done if he had not had the opposition of a Democratic Congress. But anyway he did not leave the American people $40,000,000,000 in debt.

Mrs. Hoover never made speeches or raced hither and yon on unimportant matters. She never wrote silly drivel on her every-day life and sold it to the newspapers and she never sold soap over the radio. Her only public appearance was as an honorary member of the Girl Scouts of America. She never invited Communist youth to the White House as her guests. The Hoover family seems to have made a failure of about everything that goes nowadays.

TOO BUSY TO TELL US?

Mr. Willkie challenges Mr. Roosevelt to debate. Mr. Roosevelt counters with the assertion that executive duties forbid his indulgence, and states that times are too perilous to take his attention from the State's affars.

Since when were the intentions of a candidate for the Presidency so important that the folks back home should not know? The exemplification of the smugness of present-day affairs could not be more truly wrapped in words.

If Mr. Roosevelt has any plans for the United States; if he depends upon the boys back home to rally 'round the Flag and answer the call; then he should reconsider his bold statement and come out in the open and discuss the important issues that prevail.

Walter Lippmann recently remarked that if and when Mr. Roosevelt and Mr. Willkie finally got down to the serious business of telling the people the truth, many situations would be clarified. Mr. Willkie's suggestion of a debate, together with the demands made by outstanding educators, should be answered by something other than excuses. Mr. Roosevelt can spare the time, and we are sure the public will give him "time off" for such declarations as he chooses to make.

U. S. PLANES WIN PRAISE OF BRITAIN

The recent return of a Hudson bomber to its base, despite the fact that its nose had been shot off and all windows in the pilot's cabin blown out, drew enthusiastic praise from British air ministry officials.

The plane was badly damaged while making a dive bombing attack on two German destroyers near Denmark amid heavy anti-aircraft fire.

The force of the wind entering the cabin through a hole where a window had been blew everything out of the cabin. It caught the pilot's helmet, which acted like a parachute and pulled his head out the window. The navigator was blown against the cabin's back wall, but he finally managed to break the strap of the pilot's helmet and drag him back.

When within perhaps a hundred yards of the ground, they managed to check the dive and get the plane on an even keel. The engines were still running perfectly, and while the plane was difficult to manage it was remarkable that she could fly at all.

"Then rain streamed in horizontally, hitting us like a barrage of peas", said the navigator. "I was colder than I ever had been in my life, but we got back at last and, thanks to the undamaged under-carriage, made an excellent landing. I am a comparative newcomer to the Hundons, but aircraft that can take punishment like that and still fly are pretty good, believe me. That experience has given me a wonderful feeling of confidence in them".

Behind the Scenes
In American Business

— by John Craddock —

The information contained in this weekly summary of happenings in the world of business and industry has been obtained from sources we consider reliable but is not guaranteed. Opinions and forecasts are based upon careful analysis but are subject to change without notice.—Ed's note.

NEW YORK, Sept. 2—Business—Pick-ups in employment, due to defense work getting under way, continue to produce larger and larger "reflections" in increased sales. After four weeks in which national department store sales averaged six per cent over corresponding weeks of 1939, the gain moved up to 10 per cent two weeks ago—and last week went on up to 15. Indications are the month of August, as a whole, will show the widest margin of gain over 1939, of any month this year. If it hits 10 per cent, the Federal Reserve Board's adjusted index of such sales would be 97 per cent of the 1923-25 average—and that would be the highest for any month since way back in the spring of 1931! Total revenue freight loadings for the nation's railroads hit a new high mark for the year last week—a fraction better than 10 per cent above the same week of last year.

* * *

WAGES TOPPING PRICES— According to official estimates by the Department of Commerce,, the income of the American people during the first seven months of the year was two billion dollars higher than forthe same period in 1939. . . In fact, it was the highest for any comparable period in the whole decade of the '30's. At the same time the cost of living, taking it on a national average, has not risen at a comparable rate. That means that, other things being equal, the average housewife today can spend a larger proportion of her income on non-essential consumer goods. She can have some costume-jewelry doo-dads for her winter coat—or get a couple of extra permanent waves—or an extra bottle of milk daily—or thick cream on top of the apple pie on Sunday.

* * *

MORE 'STARCH' — Manganese, rubber and tin are the "Big Three" of Uncle Sam's strategic materials—so called because they're vital to national defense, but surrounded with difficult procurement problems. The U. S. faced near disaster in 1918 because of lack of manganese—the ore that puts the "starch" in steel—and until recently nearly all of our manganese has had to be imported from such far-off sources as Russia, India, Africa and Brazil. The Cuban - American Manganese corporation is expanding the capacity of its plant near Santiago, from 100,000 tons to 130,000 tons annually, effective next January 1. Langbourne M. Williams, Jr., president of Freeport Sulphur Company, of which the manganese corporation is a subsidiary, said that when development of the low-grade Cuban ores was started 10 years ago, it was with the knowledge that a large, nearby source of manganese was thus being established as a bolsterer of our national defense set-up. They had to contend with a major earthquake, a revolution, and three floods before operations became technically and economically successful, in 1937, so he said it was "gratifying, after such a struggle, that the company is able with its own funds to increase its plant capacity, at the request of the Defense Advisory Commission, to augment the nation's defense resources."

* * *

WALLOP — Most of us are familiar with the Gallup Poll, but now we have the "Wallop" Index. Wallop is not the name of a man, however, as is Gallup, but the word used last week by Publisher Willard Chevalier of Business Week magazine to describe the punch which a nation's citizens collectively pack. And America's Wallop index, based on its capacity to produce the goods essential to carry on a modern war, is nearly two and a half times that of Germany, even with all the Nazis' conquered territories, Col Chevalier said. "Stacked up against the totalitarian powers, the United States still has the edge despite the recent industrial and agricultural acquisitions of Hitler and his axis partners," is his reassuring message.

* * *

THINGS TO WATCH FOR — A new cigar, exceedingly slender and four inches long, may make its debut soon, termed the "genteel version" of the famous though inelegant Pittsburgh stogie. . . the latest in uses for polymerized vinyl plastic is as fillings for teeth—it is claimed that it hardens without shrinkage and thus locks itself permanently in the cavity . . . A polaroid study lamp, with special non-glare qualities, available for the first time at a price to fit a student's pocketbook—described as the modern successor to the time-honored "gooseneck" student lamp . . . the "Information Please" movie short that included Wendell Willkie already it's had so many repeat bookings that it rates as the largest-grossing short subject ever released by RKO.

Maryland is taking its motor accident problem seriously. They now have a rule in effect which is probably the most strict in the nation. In all accidents, no matter how trivial, the motorists involved must appear before the state authorities and undergo a stiff reexamination of their operating ability. Their eye-sight, hearing and physical condition are checked and automobiles are also examined. Maybe something like that would cut the toll of New York accidents. There are many cars involved in accidents which cannot pass safety requirements.

Small retailers do not fail primarily because of competition according to a recent survey. They fail because of inexperience. This plus lack of adequate finance, lack of sales ability, inefficiency, wastefulness makes for failure. The survey concludes by stating that the retailer with experience who is willing to work need not fear competition.

Beware of guests! This might well be a slogan in one household where a dinner guest slipped on a rug and fell. The hostess was sued for $20,000.

Last week I spoke something of grass growing on Main street in Addison as predicted by a politician years ago. Then I took a look at the City Hall, village hall to most people, and found grass growing on the steps there.

The Phoenix Hose members are to be congratulated for starting a town band I only hope that the band will not disband with the starting of school. Should the musicians continue to practice throughout the winter, I'm sure they will receive public support.

ASK The Scientist

If you have a question to ask the scientists, mail it to the New York Press Association, The Castle, Syracuse, N. Y. The Science Board of the Radio Workshop at Syracuse University will answer each week in the columns of this newspaper the questions considered most interesting and timely.

QUESTION. Why do we have less moonlight in summer than in winter?

ANSWER. We do get less moonlight in summer than in winter. At full moon in December the moon follows a path across the sky nearly overhead while in the summer it follows a path very low in the southern sky. In December the full moon is visible 15 hours during the night while in June it is visible only nine hours. The moonlight is brighter also in December than in June.

The reason for this difference in the path of the moon in summer and in winter is that the axis of rotation of the earth is not perpendicular to the plane of the earth's orbit about the sun, but the axis is tilted 23 degrees to the perpendicular. This tilted axis is the reason the sun is low in the sky in winter and high in summer.

Now, the moon follows nearly the same path across the sky in one month which the sun follows in one year. At full moon the moon is on the opposite side of the earth from the sun and follows a path which the sun will follow six months from now. So, when the sun is low in the sky in winter, the moon will be high and follow the path which the sun will follow in summer. — Dr. William R. Fredrickson, physicist.

QUESTION. How does cigarette paper differ from ordinary paper?

ANSWER.— Cigarette paper is one of the lightest in weight, is very thin and non-porus. It has no rosin sizing which gives most papers their body, and it leaves practically no ash. It is made from both wood and the straw of flax and rye.

Whereas cigarette paper has been imported verly largely in the past, more and more is now being made in this country. A large mill in North Carolina with four huge paper machines now turn out nothing but cigarette paper which is made of wood.—Prof. Nelson Brown, forester.

QUESTION. Is there any scientific reason why we should not permit close relatives to marry?

ANSWER. Existing legislation against close marriages probably came about because in the past people observed that there was a greater frequency of the poorer types of person being born into families where marriages were close. They did not notice at the time that there was also a greater percentage of the superior type of person from close marriages.

Noticed several women took advantage of the sunshine of Sunday and Monday to do their washings. In view of the fact there has been no sunshine or warm weather for two weeks, they took advantage of the good days, regardless of religious or national significance.

State Aid. Ever hear of that? That is what comes back from liquor licenses, taxes, in the form of returns to the school and for highways and the like. However, it may seem the state is making a gift, but a recent survey shows that Steuben County paid $307,469 more to the state than it receives. So state aid might better have been collected and paid here at considerable saving to the county.

Fall is coming and it is well to remember that wet leaves cause skidding of cars and also falls for people. Last year 28,800 deaths were caused from wet leaves, snow and ice and insecurely fastened rugs. So, watch your step!

For the Rambler—

Was in Addison Wednesday evening last week to see myself on the flickering screen. Wonder how long I've had the habit of licking off my upper lip while eating an ice cream cone. By the way saw several of my friends and acquaintances there (on the screen) and I'll bet some of them discovered things about themselves too. For instance I got to thinking maybe the Rambler never knew before how many times a day he had to brush the flies off that shiny dome of his or was that comedy acting? I noticed it got a laugh anyhow. Whoops! Yes sir, local movies should be shown more often and taken when we are unaware. They show us what we look like to our friends.

From the genetical point of view there is a reason why we do not have close marriages because we do not want feeble-minded children, but from the point of view of the human race over a long period of time it would be better if we had close marriages because they would emphasize the good stock and the bad stock. The better stock could then be distinguished and the bad stock eliminated from the general stock.

Scientifically, close marriages are good; inbreeding is good. Inbreeding is the practice in all animal and plant breeding which ends in fine stock.—Dr. Ernest Reed, geneticist.

QUESTION. Is the human appendix any longer used for body functions? Did it once have a function?

ANSWER. So far as science knows the human appendiv has no function. It secretes a very small amount of green fluid which probably is not used by the body for any particular function. It may have a function in some of the animals which eat plant foods exclusively. Many of these animals have appendices as long or longer than the entire length of the body.

If the human appendix ever had a function, science is not certain what it was. It may have been a function which had to do with the digestion of certain food products—Dr. Verlus Lindeman, physiologist.

QUESTION. How does the rattlesnake eject its venom?

ANSWER. The glands which contain the venom and are located over the upper jaw eject the venom through the fangs. The snake has a number of powerful jaws which contract when it closes its mouth in biting. These jaw muscles are right over these glands and when they contract, they press the gland. In this manner the muscles force the venom through the fangs into the object at which the snake bites. —Dr. Lindeman.

QUESTION. How many chemical compounds are there and are any new ones being discovered?

ANSWER. Probably no one knows how many chemical compounds we have at the present time. Known compounds include well over 300,000 compounds of carbon, that it, compounds such as gasoline, sugar, fats and proteins. A great many new ones are discovered every year, so that it is impossible for anyone to say how many compounds there are at the present time.—Dr. Albert L. Elder, chemist.

Fresh Fruit Lends Flavor to Dishes

Apple Delight

6 cups pared cubed apples
1 tablespoon coarsely grated orange rind
½ cup water
½ cup powdered sugar
Whipped cream

Combine apples, orange rind and water; cook until apples are tender—about 20 minutes. While hot pile in sherbet glasses and sprinkle generously with sugar; top with whipped cream.

* * *

Breakfast Cereal with Apples

Top dry cereal with apples pared very thin, cover with a generous sprinkling of brown sugar and pour cream over all as a delicious note in breakfast dishes. Apple sauce may be used instead of the raw fruit if desired.

* * *

Swiss Apple Tarts

3 cups cake flour
1½ teaspoons baking powder
1 teaspoon salt
¾ cup shortening
½ cup ice water
4 medium cooking apples
½ cup sugar
1 teaspoon cinnamon

Sift flour, measure, add baking powder and salt—sife again. Cut shortening into dry ingredients until broken into coarse pieces. Add water gradually mixing lightly until dough holds together; mold slightly with the hands and chill. Peel and core apples cutting each into 6 wedge shaped nieces. Using one-third of the pastry at a time roll into rectangular shape pieces 1 by 7 to 8 inches and about the usual thickness for a pie. Cut in 1-inch strips the length of the pastry. Wrap each apple section with a strip of the dough, winding so edges overlap. Pinch dough securely together at each end. Fry in deep hot fat for about ten minutes or until golden brown, drain on absorbent paper and roll in blended sugar and cinnamon.

* * *

Apple Muffins

2 cups flour
4 teaspoons baking powder
¾ cup salt
¾ teaspoon cinnamon
¼ teaspoon nutmeg
6 tablespoons sugar
1 egg
1/3 cup shortening (melted)
1 cup milk
¾ cup chopped apple

Sift flour, measure, add baking powder, salt, ½ teaspoon cinnamon, nutmeg and 4 tablespoons sugar. Beat egg, add shortening and milk and mix well. Add liquid ingredients to dry mixing only enough to moisten evenly; fold in chopped apples. Fill greased muffin pans about two-thirds full. Place an apple wedge on top of each. Combine remaining ¼ teaspoon cinnamon and 2 tablespoons sugar and sprinkle on the muffin batter. Bake in hot oven for 25 minutes.

* * *

Baked Fruits

Use a shallow baking dish suitable for serving. Arrange sections of apples, bananas, pears, peaches, pineapple, orange, prunes, cherries—all or in part—filling dish well. Pour in syrup made of 2/3 cup sugar, 4 tablespoons butter, ¼ cup water, ½ teaspoon salt, 1 tablespoon lemon juice and the grated rind of one lemon. Bake slowly, uncovered for one hour or more, basting fruit frequently. If fruits are juicy, use no water. Serve warm with the meat course.

CATHERINE CREEK

Mrs. Meritt Baker

Funeral services for Mrs. Julia Dignen Baker, wife of Meritt Baker, were held Thursday at 2 o'clock at the home. The Rev. J. V. Axtell of Addison Presbyterian Church officiated and burial was made in Addison Rural Cemetery.

The bearers were Walter Goff and Elbert Crane of Addison; Earl Matteson, Charles Stewart and Ralph Decker of the Catherine Creek road and Winfred Long of Erwins.

The funeral was largely attended and the foral tributes numerous.

Dish For This Week

Cheese Salad Dressing

Salad dressing, made with cheese, adds to the flavor and nourishment of a summer meal-in-a-salad. The following recipe is suggested by the New York State College of Home Economics:

Cheese Salad Dressing

1 teaspoon of mustard
1 teaspoon of salt
2 teaspoons of sugar
1 tablespoon of flour
¼ teaspoon of paprika
1 cup of cold milk
1 egg
¼ cup of vinegar
2-3 cup, or 2 ounces, of grated cheese

Mix the mustard, the salt, the sugar, the flour and the paprika, and make them into a smooth paste with a little of the milk. Scald the remaining milk; then add the paste to the hot milk, and stir it constantly; then cook the mixture until it thickens.

Beat the egg slightly, stir a little of the hot mixture into the slightly beaten egg, then combine the two mixtures and stir them well. Add the vinegar, and, while it is being stirred, slowly bring the mixture to the boiling point. Remove it from the heat at once, add the grated cheese, and stir it until it is melted and the mixture is smooth.

A suggested luncheon or supper menu is: tomatoes stuffed with mixed vegetables, marinated with French dressing, served with cheese salad dressing; cold meat slices, if desired; whole wheat bread and butter; custard with crushed fruit; molasses cookies; milk for the children; and coffee, tea, or milk for the adults.

No signs were visible in war dispatches this week that Hitler had won any appreciable mastery of the air over Britain. Raider planes continued to flock across the Channel in squadrons of 60 to 200, but as often as not the alert RAF have broken up the Nazi formations before they reached London. Bombs have fallen on some sections of the metropolis nearly every day however.

British leaders are beginning to express hope that Hitler does not give up his threatened invasion of England this summer. As September weather starts and the foggy days of October are brought nearer some Britons appear anxious to test their elaborate plans for defending the Island from any flotilla Hitler could send across the English Channel. Hitler still talks invasion, but shows caution. The truth is found in the fact invasion cannot succeed until the Germans are far more nearly masters of the air over Britain.

The research department of Pratt & Lambert, Inc., Buffalo paint manufacturers, recently announced the development of a new "washable" lacquer enamel for military camouflage which can be quickly changed by using a special solvent. The lacquer will permit Army planes a change of color depending upon the terrain over which they have to fly. The new material will make for lighter weight by reducing the paint poundage of camouflaged aircraft.

PSC Estimates Annual Saving of $22,000

Albany, Sept. 4—The Public Service Commission has discontinued a proceeding to investigate the electric rates charged by the New York State Electric and Gas Corporation in the Corning-Hornell and the Elmira districts of the company. The case has been closed as the result of the filing by the company of reduced rates which are estimated to save consumers in these districts $22,800 annually.

The Commission permitted the revised rates to become effective September ninth in the Corning-Hornell and the Elmira districts. The Corning-Hornell district include the cities of Corning and Hornell, the villages of Dansville, Warsaw, Perry, Alfred, Almond, Canaseraga, Leicester, Tuscarora, Naples, Addison, Arkport, Avoca, Canisteo, Cohocton, North Hornell, Savona, Wayland, Woodhull, Gainesville, Wyoming and surrounding towns in Steuben, Livingston, Wyoming, Allegany and Ontario Counties. The Elmira district includes the city of Elmira, the villages of Elmira Heights, Horseheads, Millport, Wellsburg, Burdette, Montour Falls, Odessa, Lodi and surrounding towns of Chemung, Schuyler and Seneca Counties.

Of the total saving of $22,800 a year to consumers, $9,700 will be saved annually by general consumers in the Corning-Hornell district and $7,500 will be saved annually by power customers in that district who will be transferred to general service rates from the present power rates, and general consumers in the Elmira district will save about $5,600 annually by the reduced charges.

Sometime ago the Commission forwarded to the company a report from the Examiner who conducted the hearings in the Commission's investigation recommending that the proceedings be closed if the company filed reduced rates which were set forth and discussed in the Examiner's report. The reduced rates set forth in that report have now been filed and the case closed on the Commission's records.

The revised general service rate filed for the Elmira district has a demand charge which makes no charge for the first 1,000 watts of demand, 20c per hundred watts for the next 4,000 watts and 15c per hundred watts for demand in excess of 5,000 watts. The energy charges are $1.00 for the first 14 kilowatt hours or less, 5c per kilowatt hour for the next 56 kilowatt hours, 3c per kilowatt hour for the next 130 kilowatt hours and 2c per kilowatt hour for use in excess of 200 kilowatt hours per month. There is a maximum rate provision which provides that no bill above the minimum charge shall be more than 7c per kilowatt hour for the first 40 kilowatt hours and 6c per kilowatt hour for use in excess of 40 kilowatt hours per month.

For the cities and larger villages in the Corning-Hornell district the revised rate is a demand charge which makes no charge for the first 1,000 watts of demand, 20c per hundred watts for the next 4,000 watts and 15c per hundred watts for all demand in excess of 5,000 watts. The energy charges are $1.00 for the first 12 kilowatt hours or less, 5c per kilowatt hour for the next 48 kilowatt hours, 4c per kilowatt hour for the next 64 kilowatt hours, 3½ cents per kilowatt hour for the next 76 kilowatt hours and 2c per kilowatt hour for use in excess of 200 kilowatt hours per month. There is a minimum rate provision which provides that no bill above the minimum charge is to be more than 10c per kilowatt hour.

For the remainder of the Corning-Hornell district, the revised rate is a demand charge of no charge for the first 1,000 watts, 20c per hundred watts for the next 4,000 watts and 15c per hundred watts for demand in excess of 5,000 watts. The energy charges are $1.00 for the first 10 kilowatt hours or less, 6c per kilowatt hour for the next 35 kilowatt hours, 4c per kilowatt hour for the next 155 kilowatt hours and 2c per kilowatt hour for all use in excess of 200 kilowatt hours per month. There is a maximum rate provision which provides that no bill above the minimum charge shall be more than 10c per kilowatt hour.

The company does not propose any further changes in the second meter power rates in the Corning-Hornell district, but proposes to make these general service rates available for three-phase service. If this is done, the company expects promptly to notify all customers now served under the second meter power rates if it appears that they could obtain the same service at lower cost under the revised general commercial rates. It is estimated that a reduction of $7,500 would accrue to second meter power customers by shifting from the power rates to the general commercial rates.

The revised schedules now filed cancel a present rate for air beacon service in the Elmira and the Corning-Hornell districts. The only customer taking service under the rate has been the Civil Aeronautics Authority, a governmental agency. The company is negotiating with this agency for a special agreement for this class of electric service.

Dann Cow High For August

The Southern Steuben Dairy Herd Improvement Association reports 858 cows on test from 34 herds visited by Robert S. Drake, supervisor in charge. Robert Dann of Painted Post owns high cow for butterfat production. This Holstein produced 69.0 pounds of butterfat from 1916 pounds of milk. Four cows produced over 60 pounds of butterfat, one in the herd of H. W. Deming and three in the herd of Robert Dann.

The following members have cows meeting honor roll requirement (1200 pounds of milk or 40 pounds of butterfat): C. A. Stewart & Son 3, Edwin C. Smith (Tuscarora farm) 3, Edwin C. Smith (Goodhue farm) 5, Robert H. Andrews 2, Stuart & Dolly 1, F. & M. Kane 4, LeRoy Soule 1, H. B Toby 2, C. A. Drake & Sons 1, H W. Deming 2, J. E. Wagner 6, Paul Bros. 3, A. E. Scudder & Son 12, August Neilitz 7, Leon Andrews 1 Robert Dann 41, Clayton B. Williams 4, Raymond Young 1, Frank C. Young 1, Wilson Bennett 6 Raymond Knowles 2.

The Tester reports five high herds based on butterfat averages:

	Cows	Fat	Milk
Robert Dann	130	31.2	935.9
August Neilitz	25	29.0	719.7
Frank C. Young	6	28.7	711.3
Raymond Knowles	15	28.3	779.5
Clayton Williams	16	27.8	786.4

JUNE ALLEN FETED

Miss June Allen was honored at a farewell party recently at the home of Mr. and Mrs. Joseph Allen, Farnham street. The hostess was Miss Esther Kay Docherty, a classmate of Miss Allen's at AHS. The affair was given to Miss Allen, who is taking a 15 months secretarial course in Elmira. Those present were Miss Maude Butler of Endicott, formerly of Addison, Miss Frances Colburn, Miss Ruth Sherwood, Miss Doris Jones, Miss Gloria Vona, Miss Joyce Allen, Miss Norma Newman, Miss Emily Mantle and Miss Dorotha Jones.

Roulette — John Copestick was freed on a charge of murder in the death of Henry Wells at Owlett Tourist Camp recently. The men had been accused of drinking and engaged in a wrestling bout. Wells died as a result of the bout.

DHIA To Exhibit High Producing Cows

The dairy herd improvement associations of Steuben County are to sponsor the first dairy exhibit of its kind ever to be presented at Bath Fair, according to an announcement recently made by Farm Bureau officials.

The purebred cow from each of the major breeds, Holstein, Ayrshire, Guernsey and Jersey, that has produced the largest amount of butterfat through a ten-month period during the past year, and meets health standards, is to be presented in the exhibit.

The animals will be shown entirely at the owner's expense as no funds are available at present. In other words, dairymen breeders of Steuben County are willing to go to the expense and trouble involved to show the public what years of constructive breeding programs have been able to produce.

It is entirely fitting and appropriate that cows producing large amounts of milk and butterfat should be recognized at the county fair where the best animals are appraised. However, these cows will not be judged on whether they are streamlined or have a straight back, but rather on an actual record basis of what they have been able to return to the owner who is primarily interested in how much money each individual cow will make for him.

According to DHIA supervisors Robert Drake, Addison; Lisle Hopkins, Avoca; John Higgins, Cohocton and Frank Carroll, Canisteo, who will be in charge of this fine group of cows at the fair, there will also be on display a complete line of equipment and books used in keeping production records.

Dairymen in attendance at the fair are cordially invited to visit the DHIA exhibit which will be located in the cement cow barn on the fair grounds.

Wellsboro — Mrs. Hazel Jennings Raymenton of this place has accepted a position as assistant dean of women in Cornell University.

Andover — Allegany County welfare officers will form an employment bureau to try to bring jobless and employer together.

Prize Ayrshire From Smith Farm Home From Fair

Cal's Glen Ella has returned from the World's Fair in New York with a world's record. She will go on exhibition at the Bath Fair, but her bovine heart feels she has gone into too exclusive company to hobnob with the other cows at the fair, so she will be given a special stall, specially trimmed to meet her fastidious taste after her World's Fair experience.

Cal's Glen Ella is a prize Ayrshire owned by Judge Edwin C. Smith of Addison, a pioneer in Ayrshire breeding in this vicinity.

The world's record spoken of was made by eight Ayrshires in a herd that according to Dairy Herd Improvement Association records produced 1545 pounds of milk with 59 pounds of butterfat. In the herd Judge Smith's cow produced 1500 pounds of milk and 58 pounds of butterfat for the month of June. The herd was furnished to the Fair by the New York Federation of Ayrshire Clubs and was on exhibit at the electrified farm.

Sponsors of the Electrified Farm are to be congratulated for their part in promoting agriculture thruout the nation by raising standards.

Two of the animals in the herd were from the farm of Wayne Marsh in Cameron. They produced 1395 and 1333 pounds of milk and 54 and 49 pounds of butterfat.

COMMUNICATION

Several times there have been complaints to the police department concerning dogs. It seems other places have the same difficulty as the following article cut from the Elmira Star Gazette of August 31st will indicate.

Signed: E. P. Leavenworth,
Chief Police

Another Letter About Dogs Which Are Pests

Editor Star-Gazette: — You will see more dogs in a drive on Elmira streets than you will on a 1000-mile trip.

In the spring, particularly, they come through our yards in droves, polluting the lawns and destroying tender shrubs and plants.

In the many years that we have lived in this section there has never been a time that we have not been annoyed by dogs either chained in kennels or kept in pens. They resent their confinement and bark continually. If we want to sleep Sunday morning we are sure to be awakened and kept awake by their barking. If we complain, we are asked, "If you don't like it, why don't you move?"

It has come to a pretty pass when people have to sell their homes to get away from the pests that their neighbors harbor. I don't know where they would go; it is the same all over the city.

Crowing roosters are not allowed in the city. Why should people be annoyed by barking dogs? At least you can eat the roosters!

Funeral Services Held For Bert Sanford

Funeral services for Bert Sanford were held from the Carpenter Funeral Home, Corning, Sunday afternoon at two o'clock, the Rev. Joseph McClintock of Corning Wesleyan Methodist Church officiated and burial was made in the Rathbone Cemetery.

The bearers were Harold Rinde, John Crawford, James Preston, Regnard Myres, Robert Lee all of Rathbone and Clarence Phelps of Corning.

The death of Mr. Sanford occurred at 2:30 a. m. Friday, August 30, 1940 at the home of his son Maynard Sanford, 115 Pearl street, Corning. His illness dated from an auto accident last April in which he suffered serious injuries being for a time thereafter confined to Blossburg Hospital. His condition improved somewhat so he was able to be about for a time but during the early summer a cardiac condition developed which gradually grew worse, resulting in his death.

Bert Sanford was born June 12, 1866 in the Town of Woodhull, the son of Napoleon Bonaparte and Welthy Williams Sanford. He first married Lina Chase whose death occurred in 1903. Some years later he married Mrs. Arvilla Burris of Corning. Her death occurred about four years ago. During the greater part of his life, Mr. Sanford was engaged in farming both in New York and Ohio, although for some years he worked as a garage mechanic and for a time was caretaker of an apartment house in Cleveland.

His survivors include two sons, Maynard of Corning and Ray of Syracuse; three sisters, Mrs. Ida Perry, Addison; Mrs. Blanche Carrigan, Rathbone and Mrs. Ella Robinson of Prattsburg; one brother, Ernest of Seaford, Delaware; three grandchildren, Raymond Sanford, Jr., of Cleveland; Daniel and Beverly Sanford of Corning and a number of nephews and nieces.

Waverly—Dr. Guy S. Carpenter gave a patient an anaesthetic last Monday and then suffered a cerebral hemorrhage from which he never recovered. He was a member of several local, state and national professional societies.

Nunda—James C. Cox, first vice-president of the William Wrigley Company, visited his native town last week.

Editor Addison Advertiser:

It was with profound surprise that many Genesee County residents, including the Hanrahans, the Sherman Slocums, the Eddie and Tony Fix brothers, the Purcells —and others—read the Addison Advertiser Rambler's story regarding the reported "slipping" of Jake Kress, fisherman pre-eminent. All along the "line" there is a "bobbing" of heads and a feeling that something should be done about it.

Anyhow, Addison must not allow Jacob Walton Kress to be "caught" in such a net. It has been suggested that he "perch" himself on the bank of the Canisteo River and let someone sing "bass" to the finny tribe—and so retrieve his championship title. We do not want him to be in the position which overtook the baseball idol in "Casey at the Bat", who struck out and then the fans wheezed him as Strike-Out Casey.

Besides, how can Addison proclaim to the world bigger and better and more of 'em fish stories if Jacob Kress is "landed?" We leave it to Harry K. Fritts to answer.

W. H. Rial,

Among those present were the following: Harry Morton, Attorney and Mrs. Harry Morton, Jr., and four children of Hornell; Archie Benedict of Elmira; Mr. and Mrs. Reese Cooper of Horseheads; Beverly Benedict of Pine City; Mrs. John Burke of Coopers Plains; Mrs. Stella Crane and granddaughter, Miss Permison, Mr. and Mrs. I. Hadlock, Mr. and Mrs. Calvin Crane and children, Mrs. John Aumick and two sons, Mrs. Harold Crane, Mrs. Frank Towsley and sons, all of Addison; Mrs. Chris Cook and sons of Hammondsport; Mr. and Mrs. O. L. Farrar, Gladys Crane, Jack Strait, of Bath; Miss Mary Hadlock of Hornell; Mrs. Charlotte Dieterle and sons of Elmira; Mrs. Benedict Cooper and daughter, Mr. and Mrs. Homer Cooper and son of Elmira Heights; Mr. and Mrs. R. N. Partridge of Campbell; Mrs. Lena Jackson, Mr. and Mrs. A. J. Jones of Jasper; Mr. and Mrs. Edmund L. Crane, Howard French, Joan and Lucille Margeson of Bath; Mr. and Mrs. Chas. Spaulding, Clayton Templar and William Templar of Elmira; Miss Charlotte Morton of Cameron Mills; Mrs. L. D. Teeter, Mr. and Mrs. L. D. Kimble, daughter Marjorie and Frances Elwood of Corning.

FERGUSON REUNION

The Ferguson reunion was held on Labor Day at the home of Mr. and Mrs. J. B. Calkins in Corning. A picnic dinner was served and games were enjoyed. Songs were sung by Mrs. Wilbur Koon and the Misses Betty Ferguson and Ruth and Helen Kneaskern accompanied by banjo and guitar played by Mrs. Edward Seibert and Frances Calkins. It was decided to hold the reunion at Lake Salubria, Bath next year. Officers elected were: President, J. B. Calkins; secretary and treasurer, Miss Helen Kneaskern. About thirty attended.

Rooney Had to Master Morse Code For Role

With 40,000 amateur radio operators and 50,000 telegraphers as an almost certain part of the audiences who will be interested in "Young Tom Edison", opening Sunday at the Avon Theatre, Mickey Rooney was required actually to learn the use of the Morse telegraphic code for his role.

The code figures prominently in several parts of the story. In one school scene Mickey prompts Virginia Weidler in a geography lesson by tapping out the names of states in Morse code with a pencil on his desk. The tapping is done in full view of the audience, so it was impossible to dub in the sound. Mickey taps out the abbreviations for Oregon, Texas, Massachusetts, Maine and Wisconsin and any of the 100,000 persons in the country familiar with the code will be able to read the message.

Later in the story, Mickey averts a train wreck by sending a message in Morse code by using an engine whistle, informing an onrushing train that a bridge is out. Both of these scenes are actual incidents from the boyhood experiences of Thomas Edison.

Mr. and Mrs. Alfred Dalrymple, Wombough street, are attending the New York World's Fair this week.

SUPREME COURT
COUNTY OF STEUBEN

THE FIRST NATIONAL BANK OF ADDISON,
Plaintiff,
—against—
BURTON B. WELLS,
Defendant.

In pursuance of a judgment of foreclosure and sale, duly granted in the above entitled action and entered in Steuben County Clerk's Office on the 31st day of July, 1940, I, Hugh A. Varn, the undersigned Referee in said judgment named, will sell at public auction at the front door of the law office of Charles M. Salerno on Main Street in the Village of Addison, New York, on the 17th day of September, 1940, at 10 o'clock A. M., Standard Time, the premises described in said judgment as follows:

ALL THAT TRACT OR PARCEL OF LAND situate in the Town of Addison, now Tuscarora, in the County of Steuben, and State of New York, known and distinguished as the south 50 acres of the east 100 acres of lot No. 106 in township No. 1 in the 3rd range of townships in the County of Steuben, aforesaid, and bounded as follows: on the south and east by the respective south and east lines of said lot; on the west by the west boundary of said east 100 acres; and on the north by a line parallel with the south line aforesaid, and so far north therefrom as to divide the said east 100 acres into two equal parts of 50 acres each, reference being had to the plan in the margin of deed, dated May 1st, 1848, between Masterton Ure and John Gordon, by attorney, to Thomas P. Wells.

Also, All That Certain Piece or Parcel of Land situate in the Town of Tuscarora, in the County of Steuben, and State of New York, known and distinguished as subdivision No. 3 or the southwest subdivision of lot No. 106 in township No. 1, in the 3rd range of townships, and described as follows: Beginning at the southwest corner of the great lot, thence along the south line thereof, south 87 degrees east, 15 chains and 65 links to a stake; thence north 87 degrees west 15 chains and 65 links to the west line of the great lot; thence along said line south 3 degrees west 20 chains and 50 links to the place of beginning, containing 30 acres and 97 hundredths of an acre as surveyed by C. A. Canfield, be the same more or less.

Also, All That Certain Piece or Parcel of Land situate in the Town of Tuscarora, in the County of Steuben, and State of New York, known and distinguished as the northeast 43 acres of lot No. 117 in township No. 1, in the 3rd range of townships, and described as follows: Beginning at the northeast corner of the great lot, thence along the west line thereof, south 2½ degrees, 15 chains and 65 links to a stake; thence north 87 degrees west 27 chains 63 links to a stake; thence north 2½ degrees east 15 chains 63 links to a stake in the north line of the great lot; thence along the same south 87 degrees east 27 chains 33 links to the place of beginning as surveyed by C. A. Canfield, be the same more or less.

Excepting and reserving a strip of land along the south side of the last piece above mentioned, containing about two acres of land conveyed by Albert V. Wells to William I. Nichols.

Being the same property described in two deeds recorded in the office of the Clerk of the County of Steuben, the first in Liber 265 at page 280, and the second in Liber 307 at page 160.

ALL THAT TRACT OR PARCEL OF LAND, situate in the Town of Tuscarora, County of Steuben and State of New York, in township No. 1, in the 3rd range of townships in the County of Steuben and being the westerly 25 acres of from the 100 acre lot heretofore owned by Simeon Freeman of Addison, N. Y., and described in a deed to him, which deed is dated Sept. 15th, 1830, and recorded in the office of the Clerk of the County of Steuben in Liber 18 of Deeds at Page 303. The said 100 acres being the north 100 acres of lot No. 105 and said 25 acres being bounded as follows: On the west by the west line of said lot No. 105; on the north by the north line of lot No. 105; on the east by a line parallel with the west line of said lot No. 105; and so far east therefrom, as to include 25 acres of land and no more; and on the south by the south line of said 100 acres aforesaid. Being intended to hereby convey 25 acres of land and no more, off from the west end of the premises formerly owned by Simeon Freeman aforesaid.

Also, All That Tract or Parcel of Land situate in the Town of Tuscarora, County of Steuben and State of New York, known and distinguished as the north part of the east 100 acres of lot No. 106, in Township No. 1, in the 3rd range of townships in said County of Steuben, and bounded as follows: On the north and east by the north and east lines of said lot; on the south by a line parallel with the north line of said lot and 8 rods south therefrom; and on the west by a line parallel with the east line, and 100 rods west therefrom containing 50 acres of land.

Being the same property described in a deed recorded in the Office of the Clerk of the County of Steuben in Liber 349 at page 90.

EXCEPTING AND RESERVING from the above described premises about 0.39 acres of land, more or less, conveyed to the County of Steuben by deed recorded in Steuben County Clerk's Office September 11, 1939, in Liber 479 of Deeds at page 578.

Dated this 31st day of July, 1940.

Evolution of Printing

New York province's first printer was one William Bradford. A printer from London, England, he came to Philadelphia in 1695 and began to print under the auspices of the Society of Friends, or Quakers. Upon printing a pamphlet for a non-conformist Quaker, Bradford was arrested and imprisoned. Governor Benjamin Fletcher, who was dually governor of New York and Pennsylvania, disposed of the case by appointing Bradford the royal printer at New York in 1693. Until his retirement in 1744, Bradford earned a high reputation as both a printer and citizen. In 1725 he began the printing and publishing of the "New York Gazette."

The outstanding event in the history of the American press was the famous trial of John Peter Zenger, which established the principle of the freedom of the press. Zenger, publisher of the "New York Weekly Journal" in 1733, printed some attacks on one William Cosby, then governor of New York Province. He was arrested and tried for libel. Andrew Hamilton, a Philadelphia attorney, won for Zenger an acquittal which established for the first time the principle that in cases of libel the jury should be the judges of both the law and the facts. Prior to this decision, the jury merely decided the penalty, without considering whether or not the published items were in fact libelous.

Thus were the beginnings of printing in New York State, which through the years was to become the most important publication center in the United States, with thousands upon thousands of newspapers, magazines and books rolling off presses every year. This year, 1940, the whole of the printing industry and the civilization it has so well served are celebrating three anniversaries—the 500th anniversary of the invention of printing, the 400th anniversary of the introduction of printing into the New World at Mexico City, and the 300th anniversary of the first printing done in what is now the United States, by one Stephen Daye in Boston.

Printing made history, and it has recorded it. Truly, it has been called "the greatest invention in the secular history of mankind". By virtue of it, you read your favorite magazines and books, and hold now in your hand this newspaper.

Fair Exhibit to Show Results of Popular Project

Mrs. Aaron Putnam of Wheeler, chairman of the Home Bureau fair committee, announces that the exhibit to be shown by that organization at the Steuben County Fair will show the results of the popular project on cleaning methods. During the past year local leaders from Home Bureau units in the county received special training from the college household management specialist. As a result many different cleaning processes have been used on various types of house furnishings, thereby prolonging their usefulness and making them look fresh and attractive.

Of all the cleaning methods discussed and demonstrated, one seemed to be outstandingly popular, that of shampooing rugs and upholstered furniture, and it was this one that was chosen as the subject of the exhibit.

An outstanding part of the exhibit will be some telling examples of rugs and furniture before and after cleaning by the simple soap and water shampoo method. A number of samples of rugs and upholstered materials have also been cleaned to show the success of the method—that it does not affect the color except to improve it by brightening; and that it does not affect the texture except to improve it by making it feel soft and clean.

Household management leaders from various units and members of the county executive committee will be on hand at the booth to explain the method used to shampoo the rugs and furniture and will display the simple equipment which any homemaker has on hand. Members of the committee assisting with the exhibit include: Mrs. Henry Spence, Mrs. Clifford Cone, Hornell unit; Mrs. Gordon Conderman, Miss Ina Brasted, Howard unit; Mrs. William Bond, Savona unit; Mrs. Fred Ives of Avoca; Mrs. Arling Cobb, Mrs. Daniel Redmond, Greenwood unit; Mrs. Wilbur Mead, Big Creek unit; Mrs. Walter Wheaton, Canisteo unit; Mrs. LaVern Austin, Kanona units; Mrs. Harry McMahon, Painted Post unit; Mrs. Walter McGill, Campbell Creek unit.

Emporium—High school athletes will be covered by insurance for injuries received in athletic contests.

Blossburg—Two boys and a girl in the O'Donnell family died here within two months.

Jewish Army Proposed

A movement to enlist a world-wide Jewish army to fight beside the British against the Nazi legions arch-foes of Jewery has just been announced in London. It is proposed to raise the first 100,000 from among Jews throughout the world, but the hope was expressed that most of the recruiting would be carried on in America. While an effort will be made to have Jews finance the outfitting of this army it would be equipped by the British Government at first. It is expected that such an effort would attract Jewish pilots and wireless operators in the United States for service in the RAF. Volunteers for such an army could go to Canada for enlistment it is believed.

Mr. Green called upon President Roosevelt to send a message to the Congress stating the manpower needs of the military forces and recommending a definite program to fulfill these needs.

Welfare Administrative Costs Low in Steuben

Administrative expense of the Steuben County Welfare Department is second lowest of any county in the state. The Hornell office of W. L. Bradley & Co., auditors, consulting accountants and tax counsellors, recently completed analysis of cost of public relief and its administration in the counties of New York State as reported by the Legislative Committee of the State Association of Public Welfare officials. Bradley & Co. report "our analysis indicates administration of public relief in Steuben County for the year 1939 is $5.40 for each one hundred dollars of welfare funds administered. This is the second lowest administrative cost of any of the counties in the state, reporting."

E. R. Hardenbrook, county welfare commissioner, states that the administrative costs of his department as analyzed by Bradley & Co., covers salaries, traveling and other expense.

Bible School Program Held in Baptist Church Sunday Evening

Kilmer; Primary Department, Anne Fuller; Junior Girls, Roselyn Grant Junior Boys, Stewart Munson; and Intermediates, Norine Kilmer and Virginia Grant. After the offering the school presented some of the choruses which they had learned during the time of the school. The benediction was pronounced by the Rev. David H. Davis.

The Daily Vacation Bible School Program of the Baptist and Methodist Churches of Woodhull was held at the Baptist Church on Sunday evening, September 1. Miss Betty Park gave a piano prelude, then the entire Bible School marched in to the strains of The Children's March, played by Miss Betty Park. Two girls, Betty Jean Munson and Luella Miller took their places by the Christian and American flags. Betty Jean led the school in the pledge to the Christian flag and Luella led in the pledge to the American flag. The school then led the congregation in the singing of "Jesus Loves Me",

At this point the Rev. John R. Held, of the Methodist Church, presented the Rev. D. H. Davis of the Baptist Church, who read the Scripture lesson, briefly outlined the purposes and work of a Daily Vacation Bible School, and led the congregation in prayer.

Miss Betty Park, who had been in charge of the course in Hymnology, then gave the story of the life of Fanny J. Crosby, and led the school and congregation in the singing of "Saved by Grace", a hymn which had been written by Miss Crosby.

Following this hymn, the Rev. Mr. Held announced that the theme of the Bible School had been "What It Means to be a Christian," and presented the various classes in the memory work which had presented the thought of this theme. First came the Intermediates led by Laura Symonds in the recitation of the First Psalm. They were followed by the Primary Class, led by June Darlene Smith, reciting the Twenty-third Psalm.

The Intermediate Girls recited the Good Shepherd passage of the New Testament, the Junior Boys gave the Vine Chapter, found in the gospel of St. John. The tiny beginners recited John 3:16, and the Junior Girls presented various related passages of Scripture which teach the value of the Christian life..

At this point the Rev. Davis led the Junior Boys in a song entitled "Books of the Bible". in which the boys gave the books in order.

A gift of the Scout committee, two Christian flags, and two American flags were presented, each church receiving a Christian and an American flag. The Christian flags, beautifully made, were the work of the Intermediate girls, the material having been furnished by the Scout committee. The Rev. Davis made the presentation to the two churches and the Rev. Held made the speech of acceptance for the Methodist Church .

The time so anxiously awaited by the children brought the presentation of the certificates and prizes for the work done in the school.

August Coldest in 28 Years

A twenty eight year record was broken last month which proved to be the coldest August since 1912. According to A. E. Miller, U. S. Weather Bureau observer, for Steuben County the average temperature for the month was 64.3 degrees which is three-tenths of a degree higher than the average for 1912. The minimum for a 48 year period was in 1892.

Highest average temperature for Aug. over the 48 year period is 74 degrees registered in 1937. During last month the daily low average temperature was 54 degrees and daily high average was 74.6.

The August low was 36 recorded on August 24 and 25 which was a single degree higher than the 35 recorded August 22, 1895, as the 48 year minimum. The high mark was 86 on August 5 as compared with the record of 99 of August 22, 1916.

Precipitation last month was 2.91 inches as compared with .55 inches in 1939. While lower temperatures than 36 were registered in various parts of the county, Mr. Miller's figures will go into the records.

Doyle Succeeds McCracken As Referee

State Industrial Commissioner Frieda S. Miller has appointed Attorney Emmett L. Doyle, Rochester Compensation Court Referee, to succeed John W. McCracken, of Rochester, who retired August 1 due to continued illness. A former state senator, Referee Doyle will assume his duties at the September terms to be held in Bath, Corning and other Southern New York communities embraced in the Rochester area.

Mr. McCracken served this section for a number of years and made many friends in the Steuben area by his fair and impartial treatment of all cases coming before him. During his recent illness, George D. MacDonald presided at the last three sessions of Court held in Corning and Bath.

Associated with the law firm of Scully & O'Brien of Rochester since 1935, Attorney Doyle comes to his new post well equipped for the job. As statesenator he sponsored a number of bills affecting the welfare labor including the "Little Wagner Act", the state labor board legislation, and legislation establishing the state arbitration system. His salary will be $4,000 a year.

New Station and Trooper For State Police

The State Police sub-station has been removed from Erwin to a newly equipped building on East High street across from the residence of Sgt. Charles A. Burnett.

Trooper Edward Kalish, a native of Brooklyn, was transferred to the Painted Post unit last Saturday to work under Sergeant Burnett. This addition to the force enabled Trooper Lynn Wheeler to return to motorcycle patrol duty over the busy holiday week-end. State police activities in this area seem to be focusing in the Painted Post station.

PSC Estimates $22,000 Annual Saving

Because of the filing of new commercial rates, estimated to save consumers $22,000 annually, in the Corning-Hornell district, the Public Service Commission has discontinued investigation into the New York State Electric and Gas Corporation rates, according to a bulletin released last week. Local electric company officials assert the saving will be from five to ten per cent for most commercial customers.

The complete P. S. C. report will be found on page six of this paper.

Area Mill Gets Shirt Contract

The U. S. Navy and Marine Corps have placed a contract for 360,000 undershirts with the Elmira Knitting Mills of Elmira Heights, according to president George T. Jarvis. This order amounts to $51,600 and will furnish employment for about four months.

Bids have also been submitted on two and a half million undershirts for the Army, and it is expected awards will be announced very soon.

Warsaw—Miss Julia Willkie, sister of the GOP presidential candidate, visited her friend Mrs. Lillian Marshall here last week. Mrs. Marshall was formerly a student in a college class taught by Miss Willkie.

Holiday Traffic Breaks Record

Railroad traffic was particularly heavy over the past holiday week-end. Tourist traffic through this vicinity seemed particularly heavy as people from the metropolitan centers sought the country and the country people sought the metropolitan center amusements.

World Fair traffic was particularly heavy, the New York State Fair had the largest Labor Day crowd in several years and state police recorded an unusually heavy volume of motor traffic.

Erie trains running through the area had many extra coaches beginning Friday afternoon and some trains even doubled on the locomotives to carry traffic. In addition some trains ran in two sections something not seen in many seasons here.

Perry—The wedding bells in the First Universalist Church rang out August 17 for the first time in 48 years. This was the first marriage ceremony in the church in all those years.

Orchids to Sen. Hiram Johnson

The result of the recent primaries in California indicates that the stalwart old liberal - progressive Hiram Johnson has not lost any of his popularity with the home folks of sunny California.

Running for renomination for the United States Senate on both the Republican and Democratic slates, Hiram piled up a tremedous vote. A thorough independent, Senator Johnson cannot be counted in advance of congressional debate on any subject. He wears no label except California's.

County Costs Under Scrutiny

Next Tuesday, September 9, Steuben County Taxpayers' Association begins a searching survey into Steuben County government costs. According to a statement by Willson R. Campbell, Bath, president of the recently organized association of taxpayers, Percy Jollett, expert accountant and auditor, will begin a survey of all departments of county government—financial, judicial, welfare, highway and police. Mr. Campbell points out that while the project has not been entirely financed, sufficient funds have been assured to warrant the start of the survey, and it is hoped that the coming week will assure the entire amount needed.

It is the purpose of the association to have the survey completed in time to make constructive suggestions to the Board of Supervisors before that body authorizes the 1941 budget at its annual meeting in November. It is hoped the survey will develop ways in which material savings can be effected, without impairment of necessary services, and afford some measure of relief from the ever-grwing burden of taxation.

Seneca Falls—The Historical Society has been given much of the personal correspondence of the late Mrs. Amelia Jenks Bloomer, who is credited with naming the bloomer costume.
